### **Port Huron Receives \$375,000 for Road Project**

LANSING—Port Huron has been selected to receive a grant from the Michigan Department of Transportation for a road reconstruction project, state Sen. Jud Gilbert (R-Algonac) and state Rep. Stephen Ehardt (R-Lexington) announced today.

“Preserving and expanding our roadways is important to Michigan’s economy,” Ehardt said. “This grant is a welcome addition to other local road projects.”

The grant, totaling \$375,000, will be used for reconstruction of 24<sup>th</sup> Street from Electric Avenue to Nern Street. The money is from the Transportation Economic Development Fund and is used for urban areas in rural counties to expand and preserve the secondary all-season road network.

“Receiving this grant is great news for residents of Port Huron,” Gilbert said. “In a time of limited spending, this money will help rebuild the road to ensure the safety of motorists traveling that stretch of road.”

The TEDF was created to assist in the funding of highway, road and street projects necessary to support economic growth. Agencies eligible to apply for TEDF funds are the Michigan Department of Transportation, county road commissions and city and village street agencies.
